Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The preliminary amendment filed January 21, 2004 does not include U.S. Patent No. 6,713,560 for parent application no. 10/161,871.

This application contains claims directed to the following patentably distinct species of the claimed invention:

- 1) The carboxyl-functional polymers of claim 21 or 30. A carboxyl-functional polyester was elected in parent application no. 10/161,871.
- 2) The polyepoxy compounds. A bisphenol A polyepoxide was elected in the parent application.
- 3) The organic amines of claim 24 or ammonia. Ammonia was elected in the parent application.
- 4) The organic amines in a state of vapor, liquid, or dispersed in a solvent of claim 25. A gaseous state was elected in the parent application.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species within each of items 1), 2), 3) and 4) hereinabove for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, claims 18-32 are generic.

A reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to John A. Langworthy on June 30, 2005 to request an oral election to the above election of species requirement, but did not result in elections being made. The reply to this requirement to be complete must include an election of the species to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Sellers whose telephone number is (571) 272-1093. The examiner can normally be reached on Monday to Friday from 9:30 to 6:00. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
